YOUR JACKET MEASUREMENTS

Please Note: These measurements are based on measuring a similar garment out flat on a table, and measuring across the 5 points shown in the picture ONLY. Do not measure around a physical body.

Individual finished garment measurements may vary by +/- .6 inch (1-2 cm). Garments are custom made to order, we don't offer exchanges or refunds for incorrect sizes or change of mind.

Please note that Column A shows across chest measurement of the finished garment and not circumferencial measurement. In order to calculate chest size multiply it by 2.
